LEGEND

Maine Township High School West

Des Plaines, Illinois

Volume IV

Dedication

The 1963 LEGEND is dedicated to the members of the Senior class, the first class to have attended Maine West for four years.

FOREWORD

1963 marks a milestone in the history of Maine West. This year our school is four years old, and the graduating class is the first to belong only to Maine West. We have experienced the difficulties of any new school, but in these four years they have been overcome and our school has taken a position of leadership among the schools of our area. The student body has also made steady progress in scholarship and leadership.

In reviewing the past school year, we remember Homecoming, V-Show, Election Week, and other exciting times, but also there is the memory of final exams and perhaps the desire to do better next year. For the Seniors, next year means something new, whether it be college or work. For the underclassmen, it means another rewarding year of high school and preparing for later life.

In its four years of existence, Maine West has come of age, offering a continually improving environment for its students. Therefore, the members of the 1963 **Legend** staff present this yearbook as a "Salute to the Warriors."

Harriet,

You are the nicest, sweetest thing I have ever seen. You are a very good telephone conversationist. You are a very good drum player. Just keep on being on the terrific "A" student you have always been. Good luck in the coming years. It's been a riot this year.

Class of
66

Dear Harriet - (The best friend a girl ever had)

I guess its my turn to write in your book. I've really had a lot of fun with you this year. I hope we'll have just as much fun next year and many more after that. Things have changed a lot from last year and the year before that - but we'll always have those memories and our future to look at.

I hope we'll get together more often this summer than we did last summer. But since you go to the Y.M.C.A. pool and I got to Sand Park - I guess it will work it's self out. Well such is life I guess.

It's awful hard to believe that our first year of High School is almost over - isn't it? Next week will see all the 8th graders come for practice for their graduation. Memories? You said it!!! And next year we'll be big Sophmores!!

I know you'll be a good Secretary next year on Class Council so I won't say anything more about it except "Good Luck!"

Lots of luck with all the boys (as if you need it) But you'd better straighten Ted out about which one of us he's talking to!

I know we've had our little misunderstandings - and I do know who's fault they were - But we'll have to try harder from now on. Have fun - be good and don't do anything that I wouldn't do!!! (Be careful) Just kidding!!!

Love Ya Forever - Cathy Lee

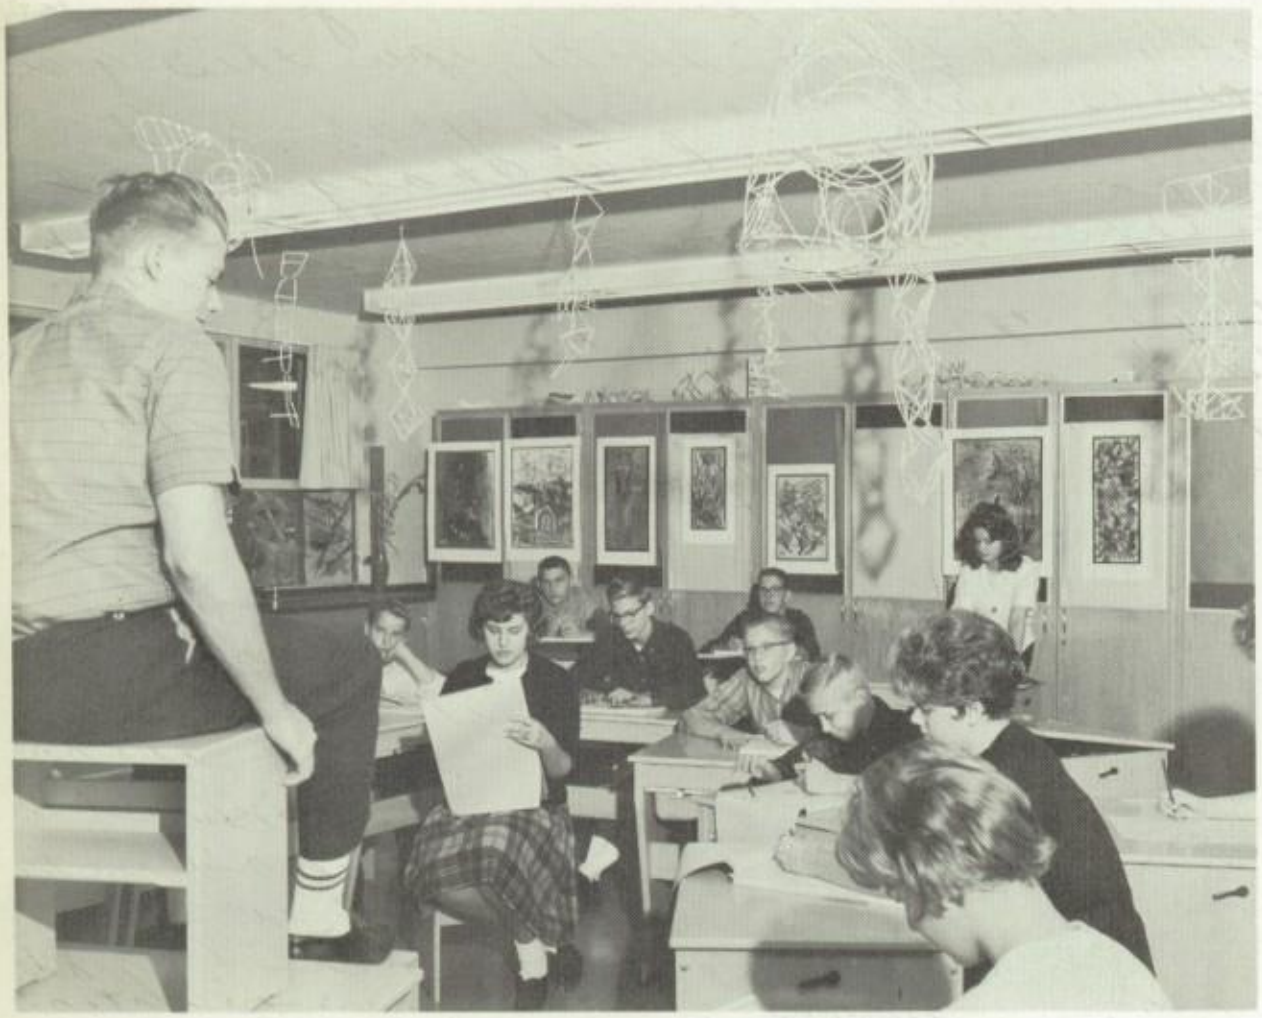
ACADEMICS



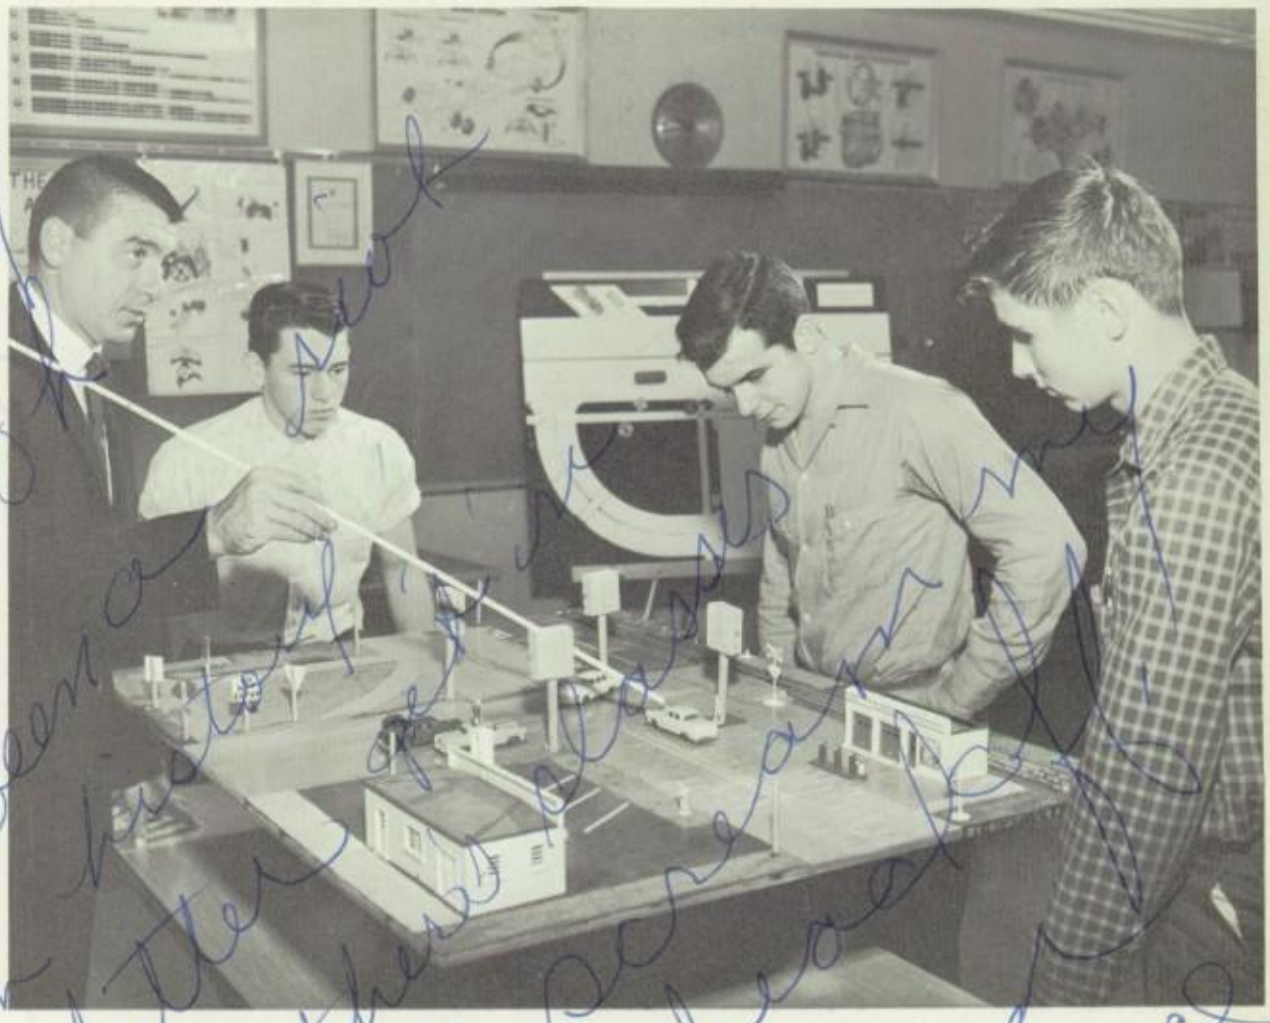
Art

Students meet the challenges and opportunities of creativity through art education. Perception—the ability to see in depth and perspective, sensitivity—the understanding of good design and craftsmanship, and awareness—the ability to recognize and understand different moods and feelings—are stressed in this department. These concepts are obtained in courses such as Art I and II, Crafts I and II, Sketching, Stagecrafters, and a School Project Workshop. The creative experience acquired through these courses broadens human understanding, encourages good taste and discrimination, and continues to enrich our lives in the future.

Business Education

The aim of the business education department is to enable the student to transact his own business matters, to give him a good foundation for advanced work, and to prepare him for a job upon graduation. This department is designed to meet the needs of all students through their years in high school. They may take Personal Typing, Typing I and II, General Business, Clerical Bookkeeping, Commercial Law, Stenography I and II, and Accounting I and II. Practical experience is gained by working in the school offices.

Safety education is required of all students. It strives to establish proper driving attitudes, to teach basic mechanics of an automobile, to establish proper driving procedures, and to fulfill state requirements. The student learns how to drive by experience in driver education. At the end of twelve weeks of this course, the students take the test for their state license. The goal of safety and driver education is to develop self-discipline, good sportsmanship, courtesy, and respect for the rights of others.



Driver Education

English

To get along with others, one must understand people and be able to communicate with them. The English department gives the opportunity for each student to express himself orally with others, individually, or in groups. It teaches the skills of listening, writing, and reading. Speaking is taught through oral reports, participation in panels, and class discussions. Listening is taught through records and tape recordings. Writing is taught by studying and writing themes and essays. Through extensive critical study of short stories, novels, plays, and speeches, students are taught literary appreciation. The ideas brought out through the literary experience obtained in the English department enable students to develop character, broaden the mind, and have a full life.

Home Economics

Home Economics at Maine West is the study of the arts and sciences of the home for the betterment of personal and family living. It includes: the growth and care of children—feeding, clothing, and housing; the family—protection of health, care of the sick, and management of time, energy, and money. The courses that are offered are Home Economics, Foods I and II, and Clothing I and II, Family Living, and Home Management. The purpose of such courses is to formulate a philosophy of life that recognizes function and beauty as a part of cultural inheritance and responsibility.

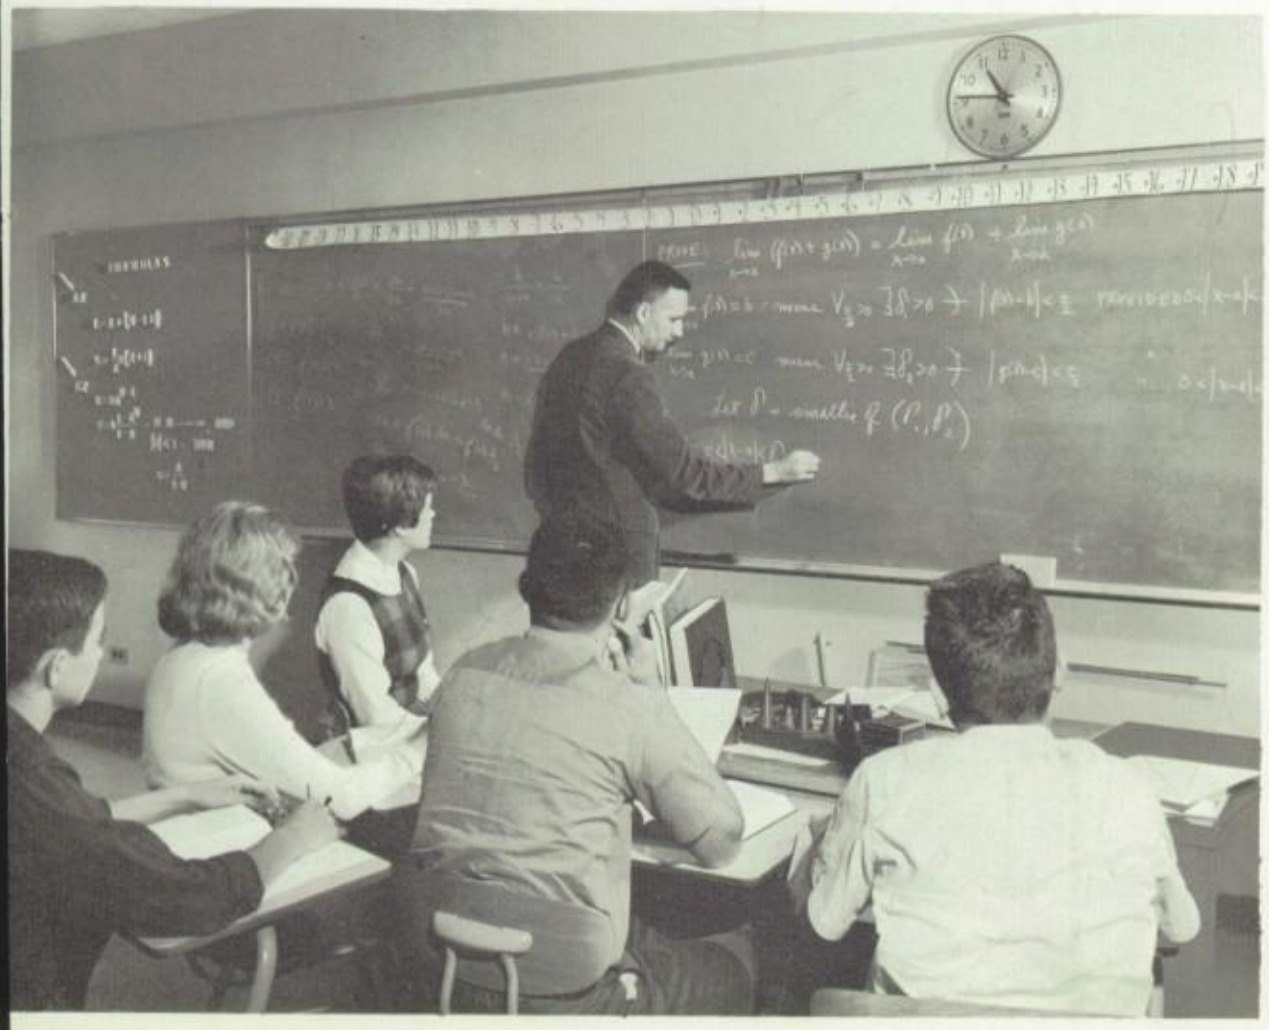
Industrial Arts

Maine West offers mechanics, electricity, electronics, metals, mechanical and machine drawing, printing, and woodworking. These courses provide students with preparation in the applied arts so they will leave Maine West with practical skills useful in finding a job.

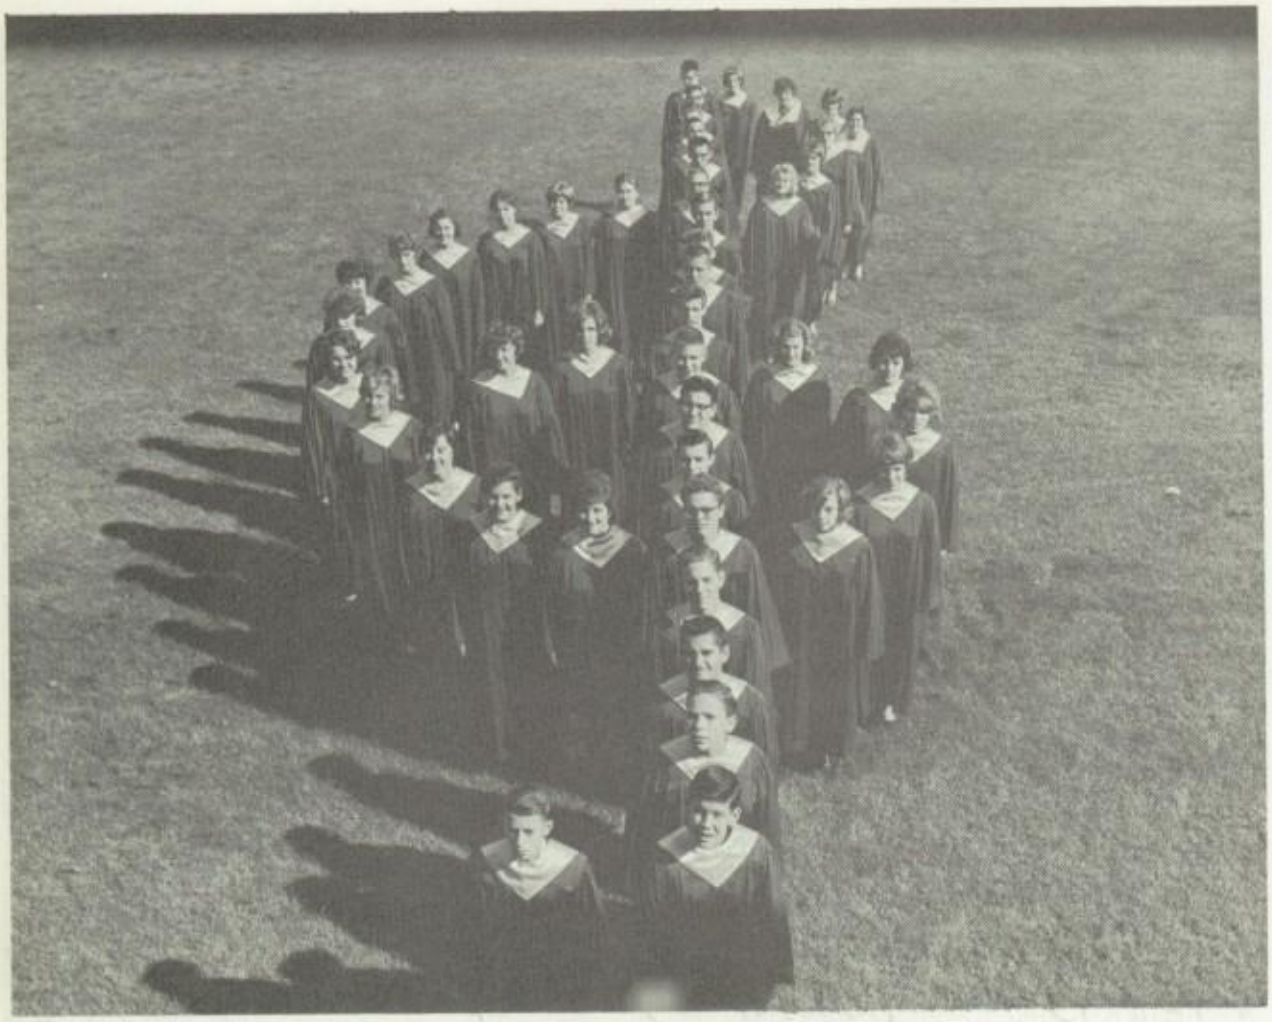
Conversational ability in a foreign language and good foundations in grammar and literature are stressed in the language department. To encourage the development of these points, Maine West has a foreign language laboratory which includes tape recordings of study materials and phonograph records of books and plays. Four years of French, German, Spanish, Latin, or Russian are offered.

Language

Mathematics



Maine West has three distinct programs of study in mathematics: college preparatory, the accelerated program, and the technical program. Through these programs the student is taught to reason and think methodically and clearly. The knowledge gained in these courses is necessary in everyday life, in cultural fields such as art and music, and in specialized fields such as industry, engineering, and science.



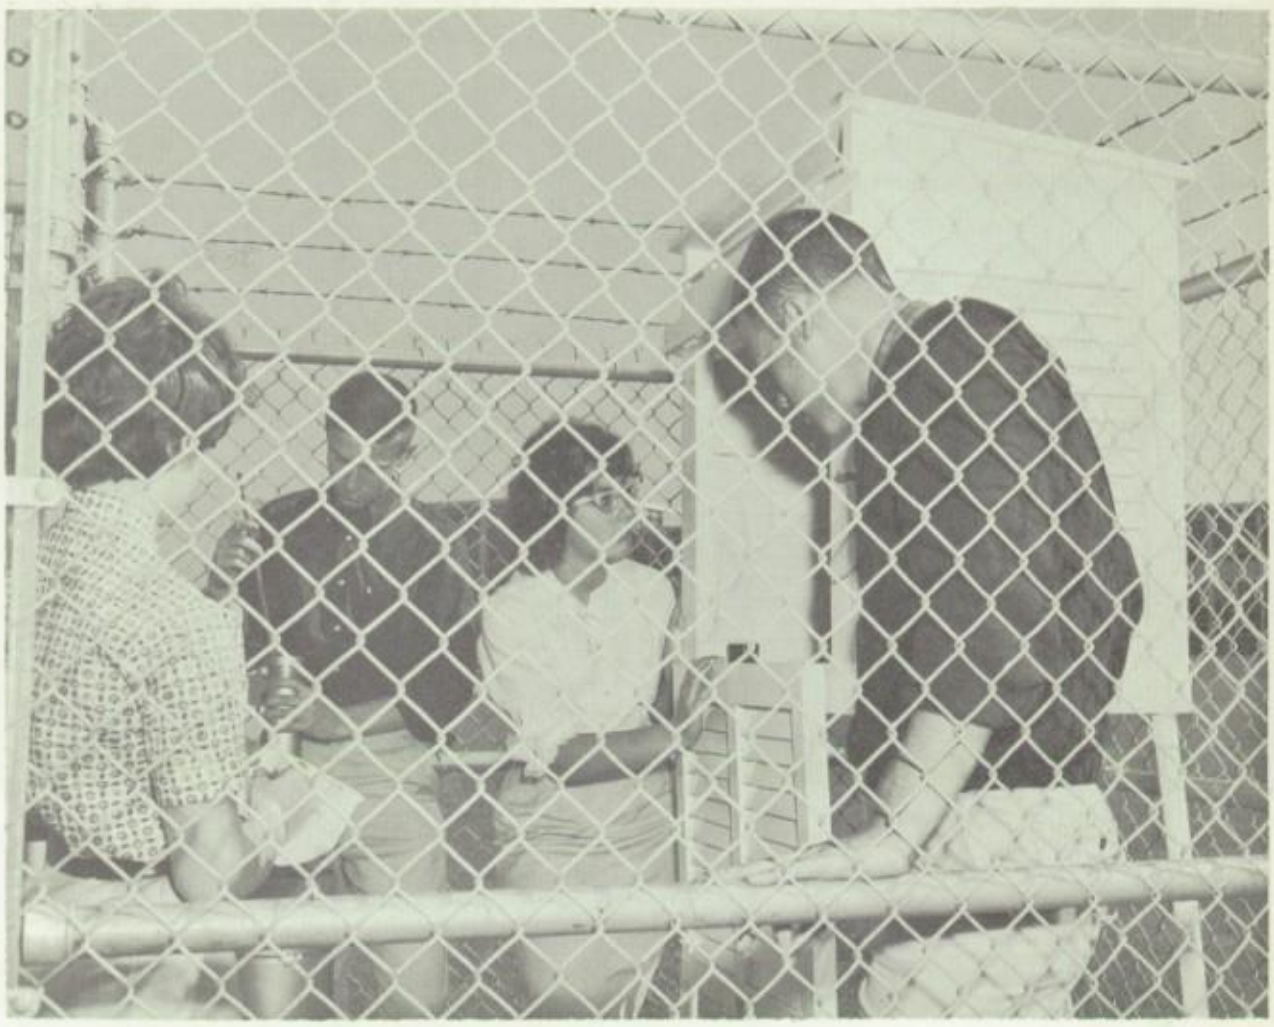
Music

"Service through music" might well be the motto of the music department. All members of the staff and student body are familiar with the department activities at the many athletic events, pep sessions, assemblies, V-Show and music concerts. Performance is the final result, but the real value of music participation is realized in the music classroom. The diligent study of music helps develop concentration, physical coordination, perseverance, mental discipline, and cooperation. In the modern age of technology it is well to remember that science can kill or cure; it can take us to the moon and back; it can give us the push-button era. But it cannot administer to our emotional and spiritual needs. Here is where music takes its rightful place.

Physical Education

Physical education provides for the student an opportunity to develop his body as well as his mind by means of organized physical activities ranging from gymnastics to social dancing. In this way the student becomes aware of the importance of sportsmanship and teamwork in daily life—thus causing him to be better prepared to live and adjust to society upon graduation. The student can also develop leadership and responsibility by entering the junior and senior leader programs.

The science department strives to acquaint the student with the basic and more detailed aspects of the scientific principles of our age and thus to instill a greater understanding and appreciation of the world in which we live. The student is also offered the opportunity to prepare for technical careers in the field of science.



Harriet
It's been being loads of fun being in history with you. Remember our test? Good Luck!! Have fun with the boys!
Love ya
Janet Jackson

Science

Harriet,
It's been fun having you in history. Have a fun this summer.
Love ya,
Mary Cecile

Social Science

The social science department primarily strives to aid the student in becoming a responsible and intelligent citizen during his adult life. This goal is achieved through many courses which increase the student's understanding and appreciation of democratic ideals and values. These courses all serve to make each student capable of functioning in everyday life as an informed and alert citizen in a democratic society.

Library

The library supplies the student with a wide selection of books and magazines for recreational and class reading. In addition, it contains sections covering academic fields, vocational files, and college catalogs.

Adult Education

The adult education program at Maine is currently in its twenty-fifth year of service to the community. 150 different educational offerings are available in a wide variety of interest fields to the residents of Maine Township. Twenty-two new courses were added this year to the listing which last year attracted more than 7,800 adults. The courses offered ranged from college subjects to the fundamentals of mathematics and reading.

The nurses give any student good medical attention if he becomes ill and first aid if he is injured during the day at school. They also sponsor the Maine West Future Nurses Association.

Nurses

Reading Clinic

In addition to the Reading Improvement Program carried out in the classrooms at Maine West, the reading clinic offers assistance to students in improving their reading skills in a more specialized way. In elementary schools most students learn to read; in high schools students must read to learn. For those who have not mastered basic reading techniques and for those who need help in other related ways, individual help is given in small groups. Progress made depends on the interest and effort of the individual. The opportunities for growth in reading ability are unlimited.

Harriet,
I have really enjoyed getting to know ya this year. Council has really been a riot and I know we both will never forget it. I'll never forget having those pictures taken for the dial. Love taken either! Good luck always Harriet and always stay as sweet and wonderful as you are now. Love ya

The Class of '66 began their high school years amid the traditional panic of getting lost, stacks of heavy books, and good-natured calls of "Hey, Frosh!"

It did not take them long to get in the swing of things, and soon they really felt like a part of Maine West. The annual freshman Mother-Daughter Tea, sponsored by Girl's Club, provided fun and entertainment for all who attended. Other social events sponsored by the Class of '66 included the class party and the P. T. C. party, "Parent Trap."

Having found their first year at Maine West enjoyable and successful, this year's freshmen are looking forward to the years to come.

Completing their first year as upperclassmen, members of the Class of '64 are looking forward to next year. Yet none will soon forget a year so full of fun and exciting events.

The year began with a crash — their Homecoming float fell apart. "Dew Drop Inn," the P. T. C. party, with its night-club motif, music, dancing, and fabulous entertainment, was a memorable evening. The highlight of the year, however, was the Junior Prom, a combination of gaiety and elegance.

The Juniors' thoughts follow two directions: backward on a year of and successes, and forward to a year which promises much more.

As graduation becomes a reality, the members of the Class of '63 may begin to reflect on the past four years at Maine West. The maturity and confidence that they have gained can only serve as a boost into the exciting future which the space age presents. The senior will always remember the weekly football and basketball games, the Homecoming and holiday dances, the fun and seriousness of election week, and the self-satisfaction of a well-performed class play and a much-enjoyed Variety Show. To the graduating Class of '63, the years at Maine West have a special significance, for it is the first class to complete four years at the new school. The Class of '63 has started the establishment of prominent traditions for Maine West in return for the knowledge that they have gained as a cornerstone of their future.

Although the 1962 football squad started the season with an excess of injuries to its key players, Coach Olson led the team on to a long string of victories broken only by the loss to the bitterest of our adversaries, Prospect. The success of the squad was also exhibited by the hard-won second place in the conference. This year's team left behind a great reputation for future Maine West teams to live up to.

Dear Harriet,

I won't call you Harry this time. Well I guess I could start off and say I hope all great years, Junior year and four hundred and twenty-three other boys in this school (dear old ... old ... old what?) know you that I know you will make many memory already. Of course I could tell you're the (as written by a shy diner) no.) Just a few best little lover I've ever had. But, I won't say it. Now that when I broke up with you I still really like you. I'm just hanging on to something I've ever do. Let me say I want to say I still really like you. (as you would) (would you) What I set out to say. First of all I like you more than anyone else, for me at least. Because, for me at least, you're a very special friend. But, I won't say it. Now that I can honestly say that I don't know what to do with this little old bitter world of boy meets girl, girl meets boy, (you know the rest) and you are. You accepted my little old bitter ideas about life, and you're a swell kid. Gee I'm glad I got the message across to you. What a swell summer we've had. Connie and I were playing strip

HOMECOMING

1962 marked the third year of a wet homecoming. The Warriors beat the Leyden East Eagles by a score of 27-0 for the fourth year of an undefeated Homecoming Game. The float theme, communications, afforded many opportunities for variety. The winning float was entitled "Beat 'Um" and made through the joint efforts of Boys' Club and Girls' Club. Placing second and third in the float competition were the sophomore class, "Signal Victory," and the senior class, "Victory Heard 'Round the World." At half-time the Maine West Marching Band and the combined Cadet and Intermediate Bands performed with great precision. The long-awaited announcement of the Homecoming Queen also came between halves. The results of the election were Jacquie Berndt, Queen, and Barb Georgans, Karen Broberg, Toril Matre, and Carol Kristen, members of the court. The queen was crowned, and she and her court were honored at the Homecoming dance, climaxing the festivities.

This reign didn't either.

Homecoming Queen, Jacquie Berndt

Dear Patricia,
It has been a lot of fun with you. I am glad you came into the same English class I was in. I hope we are in classes together next year. Good Luck. Love ya, Linda

ELECTION WEEK

This year election week was the last week in February. For three hectic days students campaigned for their favorite candidates. The highlight of the week was the election assembly, where each candidate presented his skit. Voting took place on Thursday and Friday and the winners were announced at the annual election jitney on Saturday night. The winners were Barry Eisfeldt, President-elect, and Diane Clarke, Secretary-elect.

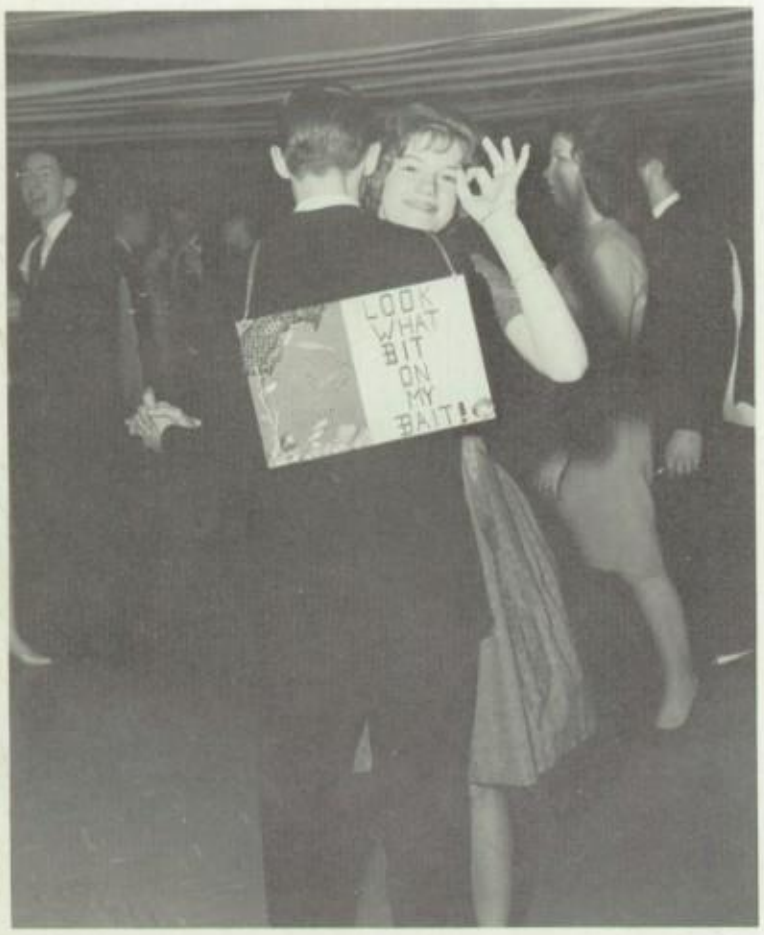
GIRLS' CHOICE DANCE

The annual Girls' Choice Dance sponsored by Girls' Club is the only turn-about affair of the year. The girls have to get a date, buy the ticket, make a corsage, and plan the evening. This year's theme was "The Four Winds and the Seven Seas" and the music was provided by a professional band, Ed Johnson and the Mayfairs.



VARIETY SHOW

V-Show is the annual all-school talent show. It offers the opportunity to show dramatic and musical ability. The lighting, sets, audio, make-up directing, advertising, and other behind the scenes work, as well as the performing, is handled by the students. The Best of Maine West delighted the audience with a wide variety of entertainment.
